

Hi dear Mom and Papa and our faithful supporters.

I just want to thank you and always thank you for your love and prayers and support to us in our lives and ministry. First of all, I want to share my gratitude for everything that you guys always do for us in the country of Côte d'Ivoire where The Lord has called us to serve Him.

The year 2022 was focused on Church elders teaching,

And mostly Pastoral Conferences and seminars just because I found it necessary for the ministry that we are called to fulfill need to be well understood.

Four times in the year 2022, I had to conduct some three days Conferences with preachers and the church community to teach them and let them understand better the Vision of the Great Commission for the fact that many of us came from the Christian and Missionary Alliance (CMA) where Tradition is mixed up in the way they want to follow Christ, It is very appropriate to learn about the renewing of the intelligent (Rom 12:1-3)

So, every three months, we gather as leaders of the Church to learn the word of God at the Bible school.

Now that I don't have some current students registered, I planned to use the school to mentor the leaders of the Church.

The reason why there is not some current registered students has two aspects;

1- before our Bible school was built, There were many guys awaiting for an opportunity to find a place where they could have the chance to get trained.

And as soon as we opened the school, they came in a good number and therefore, we got the opportunity to realise three graduations.

Right now, yet some guys have the desire to join the school, but they keep saying that they don't have the money for the school fees.

Let me tell you that up to date, I am still having 22 diplomas in my office just because I allowed to give the books and do the training but at the end, they were not able to pay the money back.

2- The other reason why I don't have some current students registered is that more than 90% of the people who are manifesting the desire of getting trained at the Bible School live in the big cities and our institute is far in the interior of the country. That is one of the reasons why I sent Sebastian in San-Pédro in the city. Right now, He is talking to people about our Bible school so that the training can start there like the way I am doing now in Sassandra where I am in the way to as I am writing this email.

At the Golikro Bible school, I am yet to start a class of six couples (12 guys) for the Pastoral training.

During the year 2022,

I have attended many Pastoral Conferences in Abidjan, Bouaké and Yamoussoukro in the perspective of reinforcement of capacity and so, I had come back to my place to gather our pastors in at the Bible School to do the same work with them.

Mark Collier had come across with two Conferences: from the 31st October 2022 to the 2nd November and from the 16- 17 January 2023 with professor David Williams from England to encourage the Pastors.

I had Doctor Firmin Kakou from the Ivory Coast across who has a program of Church Planting strategy and Church management courses that had blessed us richly.

I have coordinated all these activities with Pastor Kouamé Kouadio Blaise, who has in charge the church of Bocanda Town,

And Kouakou Kouassi Marc Stéphane as my pastor assistant and Victorine Bou Aya who takes care of the Women and Children department.

I have had to conduct a full year Biblical Radio program at the Bocanda local Radio station along side with Pastor Kouadio Blaise as well.

I am feeling pretty better from the malaria trouble and right now I am on the bus to go to Sassandra to teach the 6 Pastors that I have been training there just for the fact that it costs a lot of money to them to all pay the transportation ' fair to come all the way to Golikro.

When I am gone, I have Pastor Marc Stéphane to take care of the Golikro Church where everything looks good to my understanding.

I'll go through my phone and send you some pictures that matches better with the activities that I have told you about.

You might want had some of them pictures before on messenger where it was easier for me to send pictures.

Let me just share a little bit of word about the Rototeller and the chain saw that you guys bought for me.

Actually, I got them at the time the grass was much tall and it was difficult to plow the ground. But I did use some chemical to dry some grass and plowed to plant some Cassava and I have used the chain saw to cut down some trees where I building the house right now.

It is much dryer this time around and people are burning up the grass. So, when the rain will start, Pastor Marc Stéphane and I plus Samuel my son will be able to plow some land and plant some more crops. I can't close up without saying thank you one more time for your love, Your prayers and Your faithful support.
